BREVAL
TULIP
RANGE OF
PRODUCTS

4 wheel 1100L Waste Container (**MEGAMAX**)

Capacity	1100L(1.44 cu.yd)
Colour	customer preference
Width	1030mm
Length	1290mm
Height	1220mm
Wheel Diameter	200mm
Raw Material	HDPE (High - density Polyethylene

- ✓ Waste bin have small perforated holes at the bottom to drain out water incase rain water gets into the bin
- ✓ Some of this bin come with Pedal for easy opening
- ✓ UV protected to prevent degradation when exposed to sunlight

4 wheel **770L** Waste Container (**SUPERMAX**)

Capacity	770L(1.00 cu.yd)
Colour	customer preference
Width	1260mm
Length	780mm
Height	1270mm
Wheel Diameter	200mm
Raw Material	HDPE (High -density Polyethylene

- ✓ Waste bin have small perforated holes at the bottom to drain out water incase rain water gets into the bin
- ✓ Some of this bin come with Pedal for easy opening
- ✓ UV protected to prevent degradation when exposed to sunlight

4 wheel **660L** Waste Container (**STANDARD**)

Capacity	660L(0.86cu.yd)
Colour	customer preference
Width	1290mm
Length	780mm
Height	1150mm
Wheel Diameter	200mm
Raw Material	HDPE (High - density Polyethylene

- ✓ Waste bin have small perforated holes at the bottom to drain out water incase rain water gets into the bin
- ✓ Some of this bin come with Pedal for easy opening
- ✓ UV protected to prevent degradation when exposed to sunlight

2 wheel 240L Waste Container (***PREMIUM***)

Capacity	240L(0.31cu.yd)
Colour	customer preference
Width	570mm
Length	720mm
Height	1068mm
Wheel Diameter	200mm
Raw Material	HDPE (High -density Polyethylene

- ✓ **UV protected to prevent degradation when exposed to sunlight**

Sealing

Heavy Duty Bin Liner for 1100 Litre Waste Bins

50 liners
per carton

SPECIFICATION

!350mm (Width when the liner is closed)

1960mm (Width when liner is Open)

Length = 2100mm

Gauge = 180mm

ROLL ON ROLL OFF WASTE CONTAINERS - DUMPSTERS

- In response to global best practices, Breval Tulip offers roll off container covers to keep storm water out of your roll-off containers.
- A lighter/drier container will reduce tipping fees, and keep the storm water from mixing with the contents of the roll-off and leaking into storm drains and ground water.
- Keeping storm water out of your roll-offs results in cost savings at the landfill. No storm water also means less rust water and leachate in your roll-off!

Dumpsters (Roll off Containers)

- ✓ Can be placed on Residential and Commercial city roads
- ✓ Major bus-stops

Traffic pattern branding to enhance visibility especially at night

The Dumpsters covers can come in yellow colour or customer choice.

Waste bin over filled and
spilling
*(waste bin size not
adequate for location)*

This 10m3 dumpster can be placed in
such location(street corners, commercial
city roads where heavy waste is generated
to avoid waste spillage.

Inppropriate Waste Disposal in A Typical Lagos Market (Dumping in the drainage channel) ????????

A 10m3 Dumpster would have prevented this situation.

Dumpster(Roll Off Container) Truck with Hook Lift

When the dumpsters are filled up, Sensors on the dumpsters will send signal to the online platform. Truck moves to location and lift the dumpster to the nearest waste Transfer Loading Station(TLS)

Engineering, Technical and Operational Supplies

Waste Compactor Truck

This truck is specially designed to collect municipal solid waste and haul the collected waste to a solid waste treatment facility such as a landfill.

Rear loaders
Compactors have an opening at the rear that a waste collector can throw waste bags or empty the contents of waste bins into.

Often in many areas they have a lifting mechanism to automatically empty large waste bins without the operator having to lift the waste by hand.
